

PROFESSIONAL SUMMARY

Seasoned software engineer with more than five years in hybrid app development. I've crafted several production ready apps, focusing on user satisfaction and seamless performance. I'm all about delivering on time, meeting client expectations, and writing clean code. Let's create something great together!

EXPERIENCE

October 2023 - Now

Senior Flutter developer

Raindrop Inc. / Pepsicola

- Developed automated workflows that reduced processing times, improving operational efficiency for users managing accounts and reports on-the-go.
- Implemented real-time analytics dashboards that provided instant financial insights, helping users make informed decisions and improving financial transparency.
- Engineered offline data synchronization capabilities, ensuring seamless access to critical account information and reports even in low-connectivity environment..
- Integrated compliance monitoring features that ensured adherence to regulatory standards, resulting in reduction in compliance issues and penalties for users managing sensitive financial data.

May 2022 - October 2023

Flutter Developer

Podamibe Nepal / Tripureshwor

- Analyzed user engagement using Web-Engage analytics, improving retention rates by 15% through targeted feature enhancements.
- Enhanced user engagement by 20% through push notifications and location-based services, providing personalized content and recommendations.
- Improved app store ratings by 1.5 stars through continuous user feedback integration and updates.

June 2020 - April 2022

Software Developer

Incube Technologies Pvt Ltd / Patan

- Kept up with mobile technology trends and applied them to my projects.
- Fixed application bugs with making use of crashlytics and sentry.
- Implemented Bloc pattern to separate business logic from UI components, ensuring a clear and maintainable code structure resulting in easier testing and a more seamless user experience.
- Applied SOLID principles to manage dependencies and improve code maintainability, making it easier to scale the app and integrate new features seamlessly.

EDUCATION

2013 - 2019

Bachelor of Engineering in Information Technology

Maharashtra Institute of Technology / Pune, India

+9779860920006
